

October 6, 2016

Dear Students,

To assist you in planning for the upcoming academic year, below are information and significant dates and deadlines related to graduate awards, scholarships, bursaries, fellowships and prizes. While some applications are submitted directly to the School of Graduate Studies Graduate Awards Office, most competitions require that graduate units set internal deadlines, receive applications, and conduct an internal selection process prior to sending their top applications to be centrally adjudicated at the School of Graduate Studies. Paper copies of your application and official transcripts must be submitted to the Graduate Department of Public Health Sciences, unless otherwise specified.

Information sessions on Provincial and Federal Awards (NSERC/SSHRC/Vanier CGS/CGS Masters and OGS) offered at UofT's three campuses will provide general program information including eligibility requirements and application process. You are encouraged to attend these sessions (details below). Those unable to attend a workshop can view the slide presentations on the [SGS website](#) after September 20. At this time, the website includes the slide presentations from Fall 2015.

Important Reminders

- Award announcements will be sent to students approximately 3-4 weeks prior to the posted application deadline. As soon as possible, carefully read the application instructions and criteria on the award announcement as well as the agency's website and only apply if you are eligible. Start your application early and give yourself

plenty of time to collect required documents (transcripts and reference letters). Use a checklist to make sure that your application and supported documents are complete.

- Students may apply to only one council (CIHR, NSERC, or SSHRC) in a given year. To select the most appropriate granting agency, please click [here](#).
- Awards where academic merit is a requirement: Applicants must have achieved at least A- (80%, 3.7/4.0, 7.0/9) or equivalent in **each** of the last two completed years of studies, full-time equivalent (unless specified otherwise) **or** if the student has completed two years of graduate studies at the time of application, the student must only demonstrate an overall average of at least A- (or equivalent) on all graduate courses completed. If marks used for calculating an applicant's grade point average (GPA) are not available (for example, courses were graded on a pass-fail basis), then the next most recent available undergraduate or graduate marks are used to determine eligibility.
- Official/original transcripts must be submitted from your studies in Canadian and/or American universities. An exception will be made for transcripts outside of North America. Students may request certified copies of non-North American transcripts by contacting grad.dlsph@utoronto.ca (at least 2 days' notice is required). Please note: A current UofT transcript which includes the 2016 Fall session showing your registration and course enrolment is required for all registered UofT students applying for Vanier CGS, CIHR, NSERC, SSHRC and CGS Master's scholarships.
- Transcripts and letters of reference may be sent directly to the GDPHS.
- Applicants are responsible for reviewing the award criteria and ensuring that they have met all the eligibility requirements and adhered to the scholarship application guidelines. Students are responsible for ensuring that their application is complete. Late or incomplete applications will NOT be accepted.

Financial Aid and Counselling

A financial counsellor is available to students to provide information and direction on various financial aid programs and assist in many aspects of managing educational expenses including planning a budget, debt load management, etc. It's best to seek help early so your problems don't get out of control. Most financial problems only get worse unless you seek help. Financial counselling sessions are confidential.

To schedule an appointment with the Financial Counsellor, contact the SGS Graduate Awards Office, 416-946-0808 or graduate.awards@utoronto.ca. For further information, visit [Financial Aid & Counselling](#).

Ontario Student Assistance Program (OSAP) and other Government Student Loans

OSAP provides eligible Ontario students with financial assistance to help pay for educational-related costs. It is a needs-based program based on a formula that compares your educational costs to expected contributions from your parents/spouse (if applicable) and your own income and assets. The loans are interest-free as long as you are enrolled in full-time university study.

Applicants must be a Canadian citizen, permanent resident or a Protected Person and has always resided in Ontario or has lived in Ontario for at least 12 months immediately prior to their study period. In addition, applicants must be enrolled in a graduate program in at least 60% of a full-time course load per term, or 40% of a full-time course load if you have a permanent disability, be able to demonstrate financial need and have not defaulted on a previous OSAP student loan. Any changes to income, course load, address and marital status must be promptly reported to [Enrolment Services](#).
