

# CENTRE FOR GLOBAL HEALTH

The [Centre for Global Health](#) is the knowledge hub of global health educational activities at DLSPH and views global health in an integrative manner. The Centre for Global Health brings together a community of students, faculty, and other partners to advance better health and equity, globally. Our vision is to be an interdisciplinary knowledge hub that catalyzes excellence in global health research, education and service, and prepares future public health system leaders to make a global societal impact.

## FALL 2020 EVENTS

Upcoming webinars & workshops include the following (dates TBC):

- How does a public health crisis impact the education sector?
- Impact of COVID-19 on gender equality
- Environmental health approaches to COVID-19
- Public health systems and responses to COVID-19: Perspectives from Brazil, Canada, and the UK
- Pivoting research methodologies during COVID-19
- Decolonizing global health methodologies
- Careers in Global Health Series
