Review degree programs and fields of study carefully as you may not be eligible for all degree programs or fields of study within a degree program (http://www.dlsph.utoronto.ca/programs/). Read the instructions below and follow the steps for program selection in the SGS Online Admission Application.

1) Graduate unit: **Department of Public Health Sciences**

2) Program: You may select ONE of the following options

   - **Bioethics**
   - **Community Health**
   - **Public Health Sciences**

3) Degree Programs:

   - **Bioethics (MHSc) applicants** – select Master of Health Science
   - **Community Health (MScCH) applicants** – select Master of Science in Community Health

   **Public Health Sciences (MPH, MSc, DrPH, PhD) applicants** – select ONE of the following options:

     - Master of Public Health
     - MSC – Public Health Science *(for MSc-Biostatistics only)*
     - DrPH – Public Health Science
     - PHD – Public Health Science
     - PHD – (flex time) Public Health Science
     - Master of Public Health – Advanced Standing *(Field: Family & Community Medicine)*
     - Master of Public Health – Advanced Standing *(Field: Nutrition & Dietetics)*

If you select the incorrect **Degree Program**, you will need to create a new application to the correct Degree Program, including payment of another application fee. For example, if you select the **MPH Degree Program** and then realize you wanted the **MSc Degree Program**, you will need to create a new application, with another application fee, to the **MSc Degree Program**.
4) Attendance Type: **Full Time** or **Part Time**

5) Start Session: **Fall 2021**

6) Field of Study: If you select an incorrect Field of Study, you will **not** be able to change it, nor will you be able to create a new application to the same Degree Program. For example, if you select the MPH Degree Program in the Epidemiology Field of Study, and then realize you wanted the Occupational & Environmental Health Field of Study, you will not be able to change the Field of Study selection, and you will not be able to create a new application to the MPH Degree Program. An applicant may only make one application to a the MPH Degree Program. Please choose the Field of Study carefully.

**Master of Public Health Applicants:**
Select one of:
- Epidemiology
- Family and Community Medicine
- Indigenous Health
- Nutrition & Dietetics
- Occupational & Environmental Health
- Social & Behavioural Health Science (for Health Promotion)

**PhD Applicants:**
Select one of:
- Biostatistics
- Epidemiology
- Occupational & Environmental Health
- Social and Behavioural Health Science

**Master of Science in Community Health Applicants:**
Select one of:
- Addictions and Mental Health
- Family and Community Medicine
- Health Practitioner Teacher Education
- Occupational Health Care
- Wound Prevention and Care

7) Collaborative Specialization: If applicable, select a collaborative specialization.

8) Proposed Area of Study: Indicate a research area of interest.
