## Program Information

Degree and Division (e.g.: MPH : Epidemiology). Please indicate if the program is coursework only

Graduate Degree Program (e.g.: Public Health Sciences, Chemical Engineering and Applied Chemistry, Faculty of Law, Geography and Planning etc.)

Supervisor name (if applicable/known)

Program Start Date:

## Additional Materials

1. Personal statement (two pages, single spaced)
  - Describe your global-health-related experiences – including coursework and independent research completed at the undergraduate and/or Master's levels, as well as professional and volunteer experiences – and how these experiences have influenced your interest in global health and prepared you for the Collaborative Specialization in Global Health.
2. Curriculum vitae
3. Writing Sample(s) (e.g. research paper completed for course work; undergraduate or graduate thesis; peer review publication). Please select writing sample (s) that reflect your individual contribution to the work (e.g. 1<sup>st</sup> author)
  - **Masters students:** One academic writing sample (10 pages maximum)
  - **Doctoral Students:** Two academic writing samples (less than 20 pages each)
  - We are looking for evidence of critical thinking, analytic and synthesis skills and clear writing skills including the ability to structure cogent arguments. Ideally the writing sample(s) should reflect your interest in global health
