

WHAT IS AN AGNICO EAGLE INTERNSHIP?

At Agnico Eagle, we think an internship is not only a way to practice your learning, it also is an incredible opportunity to develop **yourself**; your unique set of skills and experience. We value your willingness to build those skills and make a meaningful contribution to our company. And, we value your commitment to treat every person on our team with respect, helping us to operate safely, protect the environment and make a positive contribution to our local communities. Moreover, your internship will take place within the incomparable wild northern environment which will certainly stimulate new apprenticeship.

WHAT DO YOU VALUE IN A CAREER?

At Agnico Eagle, our values never waver. We believe in trust, respect, equality, family and responsibility. Why? Because they express who we are and they have helped us succeed in business for over 60 years.

ABOUT MELIADINE AND OUR NUNAVUT OPERATIONS

Agnico Eagle is always looking for new talented team members to join our Nunavut mining operations. Meliadine is located just northwest of Rankin Inlet, a small coastal town on the shores of Hudson Bay. Commercial production began at Meliadine in mid-May 2019 and the mine officially opened at the end of June. This mine is our largest gold deposit in terms of mineral resources and we expect to operate it for at least 14 years. The site features a power plant and processing facilities, as well as a complete camp complex.

YOUR CONTRIBUTION:

Reporting to the Health and Safety General Supervisor the Industrial Hygienist Intern will support Health and Safety department at the Meliadine mine. The incumbent will support various functions of the department. He / She will ensure goals and objectives are attained, while respecting Agnico Eagle's company culture, health and safety code of conduct, and the environment.
