

**POST-DOCTORAL FELLOW POSITION
YORK UNIVERSITY**

Job Information	
Position Title	Post-doctoral Fellow in Children’s Environmental Health
Category	Post-doctoral visitor (PDV)
Duration	2 years, with the possibility of renewal
Supervisor(s)	Dr. Christine Till, Dr. Bruce Lanphear
Unit	Department of Psychology, Faculty of Health
Location	York University, Toronto
Background	
<p>The Till Lab at York University in Toronto seeks a highly motivated candidate for an NIH-funded post-doctoral fellowship in the field of children’s environmental health. This is a two-year appointment, with possibility of an extension.</p> <p>The post-doctoral fellow will join a growing team that investigates the neurodevelopmental effects of early-life exposure to environmental chemicals. Use of primary teeth to reconstruct exposure history in children and identify sensitive windows of exposure to fluoride will be the main area of research focus. Specifically, the post-doctoral fellow will quantify prenatal and early childhood fluoride exposure levels using primary teeth and test whether dentin fluoride is associated with neurodevelopmental outcomes. This work will be conducted using a Canadian pregnancy and birth cohort called the Maternal Infant Research on Environmental Contaminants (MIREC) study.</p> <p>The lab is a highly collaborative environment. The post-doctoral fellow will work closely with Drs. Till and Lanphear and environmental health scientists from diverse backgrounds including dental science, epidemiology, endocrinology and biostatistics.</p> <p>More information about our research team can be found at: https://www.tillyorkulab.com/</p>	
Overall Purpose of Postdoctoral Position	
<p>In collaboration with our research team, the candidate will lead a high-quality research project that will advance our research on fluoride neurotoxicity. The candidate will have opportunities to conduct research on other related topics, such as mechanisms of fluoride neurotoxicity, including disruption to thyroid hormones and immunotoxicity, and interactions with maternal nutrition.</p>	
Key Responsibilities	
<p>The post-doctoral fellow will be responsible for carrying out large-scale statistical analyses, applying novel statistical approaches, leading research projects, writing manuscripts in collaboration with co-investigators, mentoring graduate and undergraduate students, contributing to knowledge dissemination of our research, and maintaining active collaborations with other labs and universities.</p>	

Skills and Qualifications	
Minimum Qualifications	<p>Candidates should have:</p> <ul style="list-style-type: none"> - an MD or PhD in Epidemiology, Biostatistics, Psychology, or another relevant discipline. - previous research experience in environmental health. - advanced skills in quantitative statistics; analysis of longitudinal cohort studies is highly desirable. - good analytical and computations skills
Training/Experience Required	<p>The position requires excellent written and oral communication skills with proficiency in English, exceptional organizational skills, strong time management skills with the ability to meet deadlines. The candidate should have a strong work ethic, function well as part of a team, and be able to take a proactive and independent approach to learning. Experience in collaborating with international scientific networks is an asset.</p>
Terms and Conditions	
<p>This postdoctoral position based in the Department of Psychology at York University will be at least 2 years in length. The candidate will receive strong mentorship in further developing their own independent program of research and grant development.</p>	
How to Apply	
<p>Please email the following documents to Dr. Christine Till (ctill@yorku.ca):</p> <ul style="list-style-type: none"> • A cover letter explaining why you are applying to the position and why you would be particularly suited to it. In your letter, please summarize your research interests and when you would be available to begin the fellowship. • Curriculum Vitae • One relevant first-author publication • Names, positions, and contact details of three professional references. <p>Application materials will be reviewed as they are received, and well-qualified candidates will be contacted for a video interview. The position is available immediately and does not necessitate moving to Toronto.</p> <p>Additional Information: All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, religion, color, national origin, age, sex, sexual orientation, disability status, or any other characteristic protected by applicable law.</p>
