

Award Announcements

DSI - Data Access Grants

Call for applications

Grants of up to \$10,000 are available to cover costs associated with accessing and working with large data sources. These DSI grants aim to improve data accessibility for data science researchers and foster research by mitigating the high cost of access to data sets. We believe that equitable access to resources is crucial for creating a diverse and inclusive environment. [Learn more](#).

Apply online via [the DSI website](#). For further information, please email awards.dsi@utoronto.ca

Deadline: September 30, 2022 - Applications are to be submitted [via an online form](#).

Data Sciences Institute

Call for Seed Funding for Methodologists

The [Data Sciences Institute Seed Funding for Methodologists](#) initiative is designed to encourage new collaborations of data science methodologists and theorists with applied researchers. Our goal ensures new collaborative research teams (CRTs) are forged with new and unexpected connections, thus fostering cutting-edge data science work by presenting and bringing to the fore innovative methodological and theoretical work. Single applicants working in data sciences methodology or theory can apply for this grant. An applicant's research area must focus on data sciences methodology or theory with the potential to be relevant to applied fields. Applicants will present their research and methodology/theory at a seminar, including its potential for applied fields.

Funds of up to \$10,000 can be used to support successful applicants to seed a new CRT with the aim of applying for a DSI [Catalyst Grant](#).

Deadline: October 14, 2022, 20:00 EST (submitted via [email](#))

Further information: Please direct any questions to awards.dsi@utoronto.ca or visit [the DSI website](#).

University of Toronto's Novo Nordisk Network for Healthy Population

2022 Catalyst Grant Competition

The Novo Nordisk Network for Healthy Populations is committed to supporting multi-disciplinary, collaborative teams to co-design initiatives and interventions in the Peel Region focused on reducing the burden of diabetes and chronic disease. Catalyst grants will be awarded to support evidence-informed programs, interventions, approaches, or evaluations that have shown promise in other contexts and align to the Network's mission: To reduce social inequities in risk and burden of diabetes and other chronic diseases through better care, lower risk factors and healthier living environments.

A maximum award of \$75,000 per year, up to 2 years, will be available for each successful grant.

Deadline: Applications are due September 1st, 2022 @ 5:00pm EDT. [Full competition details and Letter of Intent \(LOI\) applications can be found here.](#)

Genomic Applications Partnership Program (GAPP)

Open for Applications

The [Genomic Applications Partnership Program \(GAPP\)](#) funds public-private research collaborations focused on validating genomics-derived technologies that address real-world opportunities and challenges identified by industry, government, not-for-profits, or other "Receptors" of genomics knowledge and tools across all sectors.

Budget of \$300K - \$6M (total) over 2 - 3 years (Genome Canada funds flow to academic* partner only).

To apply please contact [Ann Meyer](#), Advisor, Sector Innovation & Programs, to discuss fit of potential projects with the program and key criteria for GAPP. Project teams that are a potential fit will be provided the Expression of Interest (EOI) form.

Deadlines: Draft EOIs are due to Ontario Genomics on August 3, 2022, at 9am. To learn more please visit the [website](#).

MRA typically due 1 week before external submission. Please visit [here](#) for more UofT information on this opportunity.

The Center for Global Disability Studies

Small Grants Call for Applications

[The Centre for Global Disability Studies is offering small grants](#) of \$100-\$1500 to faculty, graduate students, researchers, and units affiliated with University of Toronto on a rolling basis.

Grants are offered in the following categories:

Research activities

Events

Disability Studies and Disability Justice Events
Accessible Events Matching Funds

Visit the [website](#) for more about this funding opportunity.

The Ontario Water Consortium - Mitacs Partnership Call for Proposals

The Mitacs Accelerate program connects high-calibre academic candidates with industry, not-for-profit organizations, and municipalities to foster innovation. Mitacs provides up to \$7,500 per 4-month Internship Unit with a required 1:1 match. The Ontario Water Consortium matches the proposal with the appropriate partner entity to provide the remaining balance of the \$15,000 Internship Unit. OWC has reserved 120 Internship Units for these projects and will help connect water technology companies and water utilities across Ontario to Mitacs programs to gain access to expertise and for college, undergraduate, graduate students, and post-doctoral fellows to get the practical experience they need to advance their skills, careers, or transition from academia to industry.

To apply, through OWC, complete and submit the [OWC - Mitacs Project Intake Form](#). For complete application information, please visit: <https://ontariowater.ca/mitacs-partnership/>

School of Cities Small Grants Program

The School aims to reflect the diversity of people and communities of the local urban region. It is especially committed to the active participation of under-represented and equity-deserving groups, Indigenous, Black, immigrant, racialized, LGBTQ2S+ people and people with disabilities.

This year, the School of Cities is focusing on the topic of climate and justice in cities and particularly welcome projects addressing the intersection of urban vulnerability and climate change and adaptation, however, all applications will be reviewed and considered.

Individual faculty and staff members, and recognized UofT student groups, are eligible to apply.

Maximum of \$2,500 per initiative (for 1 year), with the majority of awards ranging from \$1,000-\$1,500.

For more information please visit the [School of Cities website](#).

2023 Sloan Research Fellowships Call for Nominations

The [Sloan Research Fellowships](#) (USD\$75,000) fellowships are awarded in recognition of distinguished performance and a unique potential to make substantial contributions to the fields of chemistry, computer science, Earth system science, economics, mathematics, neuroscience, physics, or a related field. Candidates must hold a PhD or equivalent degree in a relevant field; must be tenure-track, but untenured, faculty as of September 15, 2022; and their faculty position must carry a regular teaching obligation.

Prospective nominees and nominators may wish to view the recorded workshop "[Strategies for Success with Sloan Fellowships and Other Early Career Opportunities](#)" (2021), featuring four recent U of T winners of the Sloan Research Fellowships.

Deadlines: [My Research Applications](#) - September 13, 2022, Sponsor Deadline - September 15, 2022
For further information and detailed nomination guidelines, please see <https://sloan.org/fellowships>.
To discuss nominating a candidate, please contact your [divisional awards coordinator](#).

Other News

CIHR Fall 2022 Reviewer in Training Program

Open for applications

The Canadian Institutes of Health Research (CIHR) is pleased to announce the launch of the [Reviewer in Training \(RiT\) program](#) for the Fall 2022 Project Grant competition.

This program offers Early Career Researchers (ECRs) a learning opportunity to gain a better understanding of the elements of high-quality review and the peer review process through direct participation in the Project Grant competition with the support of a Mentor. Following completion of the RiT program, participants will be promoted within CIHR's [Reviewer Pathway](#) and are expected to participate in peer review when requested and available to do so.

Deadlines: Applications open on July 18th, 2022, and close on August 12th, 2022. Applications may be submitted directly to [CIHR](#) and do not require institutional endorsement from Research Services.

If you have any questions, please contact CIHR directly at college@cihr-irsc.gc.ca.

Reminders

[Mitacs Global Link Research Award - Ukraine update](#)

This new collaboration on the Globalink Research Award program now allows Canadian institutions to submit projects and host Ukrainian interns, from any discipline.

Deadline: Open all year

[2022 SSHRC Insight Grant competition - Call for Applications](#)

SSHRC has updated the Insight Grant competition guidelines for the 2022 competition. Insight Grants support long-term research initiatives in the social sciences and humanities.

Deadlines: [MRA](#) – Sept. 22, 2022 (noon), [Sponsor](#) – Sept. 28, 2022 (9 am)

To help you with your SSHRC Insight Grant application, please refer to the webinars below.

[SSHRC Insight Grant – Budget Information Session](#) - August 25th, 10:00 am - 11:00 am

SSHRC hosted webinars via WebEx.

[French language version](#): Sept 1, 2022, (ET): 10 - 11:30 am

[English language version](#): Sept 1, 2022, (ET): 1 - 2:30 pm

[SSHRC Knowledge Synthesis Grants: Gender-Based Violence](#)

A competition to mobilize social sciences and humanities research to examine and synthesize existing knowledge on gender-based violence (GBV).

Deadlines: Internal deadline #1 (MRA) - noon, August 25, 2022, Internal deadline #2 (full application submission) - 9 am, Tuesday, August 30, 2022: submit the final application on the [SSHRC site](#)

[2023 NSERC Discovery Grant - Notification of Intent to Apply](#)

The mandatory NSERC Notice of Intent form for the 2023 Discovery Grant competition is now available through the NSERC Research Portal. A [webinar](#) is also available to assist researchers with the NOI stage.

Deadline: NOI - August 2, 2022, 8pm (ET)

[2022 Samsung Global Research Outreach Program](#)

The SAMSUNG Global Research Outreach (GRO) represents an opportunity to build a mutually beneficial research relationship between Samsung and Universities.

Deadline: Monday, August 22, 2022 at 8:00 pm ET / 5:00 pm PT

[Entrepreneurship for Cardiovascular Health Opportunities](#)

A fully virtual, specialized national training program that provides entrepreneurship training, mentorship, networking and funding opportunities for early ventures in the cardiovascular health sector.

Deadlines: Complete the two forms ([1](#), [2](#)) and submit before 11:59 pm EST on August 8, 2022.

Interviews in September 2022, program begins October 2022.

[CRIS Research Roundup Issue 113 - now available](#)

A weekly digest of research and innovation communications.
