

McGill

STREAM
Studies of Translation, Ethics and Medicine

Postdoctoral Fellow in Bioethics / Clinical Trials / Meta-Research

McGill Dept. of Equity, Ethics and Policy / Studies of Translation, Ethics, and Medicine (STREAM) is inviting applications for postdoctoral research fellow (PDF) for highly interdisciplinary research. Appropriate backgrounds include the social sciences, philosophy, decision sciences, health policy or epidemiology.* Priority will be given to candidates with demonstrated knowledge of drug trials and a penchant for interdisciplinary work.

Projects will use various approaches to better understand how risks and benefits in trials of new drugs are/should be evaluated, and how reproducibility can be improved in drug development. Another project aims at helping patients and policy-makers evaluate complicated risk/benefit trade-offs for clinical trials. This work will be conducted in close collaboration with medical scientists.

The PDF will work under the supervision of Jonathan Kimmelman. The PDF is encouraged to develop their own research within the scope of the project, and to publish both team and independently authored manuscripts.

Review of applications will proceed on a rolling basis and will continue until the position is filled.** Applications should include a cover letter describing research interests, a CV, a writing sample, and the contact information for 3 references. Applicants who do not have a completed Ph.D. at the time of application must include a letter from their Department Chair specifying the date of their dissertation defense. [posting date March 01 2023]

Applications should be sent electronically to:

Jonathan Kimmelman, PhD

Dept of Equity, Ethics, and Policy

McGill University / 2001 McGill College, 11th floor. / Montreal, QC H3A 1L7
