

Navigating the School of Graduate Studies Online Application

The information and screen shots below will help you in the submission of your application to a graduate degree program in the Department of Public Health Sciences.

Review the degree programs and fields of study carefully as *you may not be eligible* for all degree programs or all fields of study within a degree program (<http://www.dlsph.utoronto.ca/programs/>). Read the instructions below and follow the steps for program selection in the SGS Online Application.

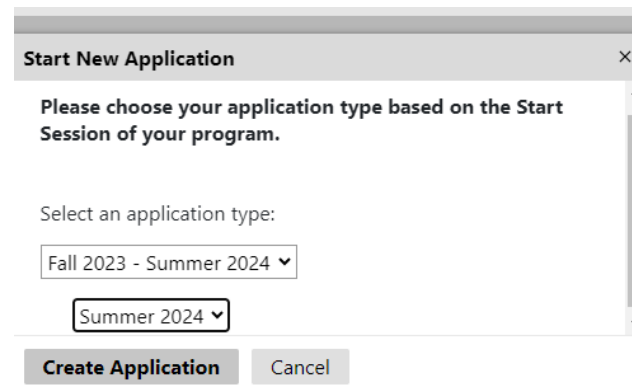

- 1) Start New Application: Choose the Start session. Applications for all Degree Programs start in **Fall 2024** EXCEPT MPH Indigenous Health, which starts in **Summer 2024**.

For all programs *except MPH Indigenous Health*, choose Fall 2024 – Summer 2025:

The screenshot shows a dialog box titled "Start New Application" with a close button (X) in the top right corner. The main text inside the dialog reads: "Please choose your application type based on the Start Session of your program." Below this text, there is a label "Select an application type:" followed by a dropdown menu. The dropdown menu is currently open, showing "Fall 2024 - Summer 2025" as the selected option. Below the dropdown menu, there is a text input field containing "Fall 2024". At the bottom of the dialog, there are two buttons: "Create Application" and "Cancel".

For MPH Indigenous Health, choose Fall 2023 – Summer 2024:

The screenshot shows a dialog box titled "Start New Application" with a close button (X) in the top right corner. The main text inside the dialog reads: "Please choose your application type based on the Start Session of your program." Below this text, there is a label "Select an application type:" followed by a dropdown menu. The dropdown menu is currently open, showing "Fall 2023 - Summer 2024" as the selected option. Below the dropdown menu, there is a text input field containing "Summer 2024". At the bottom of the dialog, there are two buttons: "Create Application" and "Cancel".

2) Program Selection:

a) **Graduate Unit:** Locate **Department of Public Health Sciences** in the drop down menu:

est.technolutions.net/apply/frm?434fd994-162a-4e52-9935-c162d64659c6

- d) Select up to 3 **Collaborative Specializations** in which you might be interested in participating. Each Collaborative Specialization has its own application process and associated deadlines. You can learn more about the Collaborative Specializations available to Public Health Sciences students [here](#).

- 3) Next, you will need to enter your personal and contact information, your complete post-secondary academic history, and indicate whether or not English Language Proficiency (ELP) test scores are required.

You must indicate, in your application profile, all post-secondary institutions you have attended, even if you feel it is not relevant to the DLSPH program to which you are applying, and even if you did not complete the program.

If ELP is required, please enter your scores into your application profile and remember to request your testing agency to forward an electronic copy of your scores to the **University of Toronto, Enrolment Services**. **Please note** that a university education in English may not be considered sufficient (e.g. TOEFL/TWE is required for graduates from such countries as India, Pakistan, Bangladesh and Saudi Arabia). A Medical Residency in Canada does not satisfy the ELP requirement, nor does living/working in an English speaking country. If in doubt, take a test of English Language Proficiency.

- 4) For applicants to **MPH program in [Nutrition and Dietetics](#)** and **[Occupational & Environmental Health](#)**, please complete the questions regarding your preference of Emphasis.

Review

Please take a few minutes to review your application before finalizing and proceeding to the payment option. You will not be able to edit any of your information after you click the "Continue" button below. You will be asked to pay the SGS Application Fee, and if applicable, a Supplemental Application Fee. You will then be able to upload all required documents for your application. It is your responsibility to ensure that all payments and document submissions are made before the deadline specified on your applied unit's webpage, and that all information submitted is accurate and complete.

We have detected the following errors with your application. These errors must be corrected before submission.

Section	Required Field or Error
Recommendations	At least 2 referees are required for submission.

We have detected the following potential problems with your application:

Section	Warning
Faculty Questions: PHSCI	Your letter of intent has not been uploaded.

Save for Later

Check this page regularly until all documents, including Recommendations from both referees have been received.

6) Finally, you will need to submit your application fee payment. Once all of the required information has been entered, all documents submitted, and the application fee payment has been received, your application will be ready for review by the Admissions Committee.

Good Luck!
