

**Postdoctoral Fellowship in Homelessness & Health,
MAP Centre for Urban Health Solutions, Unity Health Toronto**

This postdoctoral fellowship is situated within Dr. Stephen Hwang's research program focused on the development and evaluation of interventions to interrupt chronic homelessness and improve the health of people experiencing homelessness. The fellowship provides an opportunity to be part of an outstanding research team with expertise in community-based participatory approaches, health services research using administrative databases, implementation and process evaluation using qualitative methods, and randomized controlled trials. This 2-year fellowship is based at [MAP Centre for Urban Health Solutions](https://www.unityhealth.ca/en/unity-health-centre-for-urban-health-solutions), Unity Health Toronto. Individuals with a PhD in any relevant discipline are welcome to apply.
