

Job Title: Industrial Hygiene Technologist

Location: Calgary, Alberta

Company Overview: Certified Industrial Hygiene Consulting (CIHC) is a leading provider of industrial hygiene consulting services throughout Western Canada. Our expertise spans across the oil and gas sector, general industry, research, and government agencies. We pride ourselves on our long-standing relationships with major industry players and our commitment to delivering high-quality, reliable solutions.

Position Summary: We are seeking a dedicated and proactive Industrial Hygiene Technologist to join our team in Calgary. This role involves monitoring and assessing occupational exposures to various hazards including chemicals, gases, dusts, fibres, noise and radiation. You will also conduct mould, indoor air quality and HAZMAT assessments. The ideal candidate will possess a strong background in industrial hygiene, with a preference for experience in the oil and gas industry. Training will be provided to the right individual.

Key Responsibilities:

- **Monitoring & Calibration:** Prepare, calibrate, and maintain monitoring equipment to ensure accurate measurements.
- **Client Interaction:** Communicate effectively with clients to understand their needs and provide timely updates on project progress.
- **Field Work:** Conduct monitoring on site and record observations to help assess the results obtained.
- **Reporting:** Prepare detailed technical reports summarizing findings and recommendations.
- **Flexibility:** Travel to various sites across Western Canada (50-75% of the time) depending on project requirements.
- **Additional Duties:** Perform other related tasks as needed to support project goals and client needs.

Desired Skills & Attributes:

- **Communication:** Exceptional written and verbal communication skills.
- **Organization:** Highly organized with the ability to manage multiple tasks efficiently.
- **Independence:** Capable of making independent decisions and working autonomously.
- **Teamwork:** A collaborative team player with a professional and approachable demeanor.
- **Adaptability:** Proven ability to adapt to changing deadlines and work effectively under pressure.
- **Learning Agility:** Eagerness to acquire new skills and knowledge in the field in order to progress to a senior level.

Education & Experience:

- **Experience:** Previous experience in industrial hygiene and the oil and gas industry is preferred.
- **Education:** Technology diploma or certificate in industrial hygiene, environmental technology, occupational health, public health, chemical technology, instrumentation technology, or safety.
- **Additional Assets:** HAZMAT experience is a plus.
- **Technical Skills:** Proficiency with Microsoft Office. Equivalent qualifications will be considered.

Application Process: If you are a motivated individual with a passion for industrial hygiene and a desire to work with a dynamic team, we would love to hear from you. Please send your resume and cover letter to careers@cihc.info. We appreciate all applications; however, only candidates selected for an interview will be contacted.
